**VERY LATEST NEWS.**  
DESTRUCTIVE FIRE AT PLUMER.  
LATEST NEWS FROM JAMAICA.  
DEATH OF PROMINENT PHILADELPHIAN.  
NEW YORK MONEY AND STOCK MAR-  
KETS.  
GEN. JOE JOHNSTON IN WASHINGTON.  
PROBABLE ESCAPE OF THE PRATE  
SKINNER FROM PUNISHMENT.  
A LETTER FROM GENERAL MEADE.

Special to the Morning Herald.  
PLUMER, March 5th 1896. A fire broke out  
this evening at seven o'clock. Three stores were  
entirely destroyed, occupied by J. Worn's clo-  
thing store; Baber & Co., Boots & Shoes, and  
Sutton's Meat Market. Goods were mostly saved,  
but in a damaged condition. Great effort was made  
the citizens to save the property from destruction,  
but for the reason that water was so far  
away, little could be done. The Bank Block,  
on the opposite side of the street, was saved by  
applying wet blankets by J. J. Wardworth,  
Prather Bros. W. H. Bunn, Booth J. Burt and  
several other prominent citizens. Loss esti-  
mated at twenty thousand dollars.

New York, March 5.  
The steamer Crusader, from Jamaica, Port Au  
Prince and Turk's Island, has arrived.  
JAMAICA.—A deputation of prominent men  
wrote to Gen. O'Connor and expressed their  
thanks for the energetic measures in aid of the  
Governor in suppressing the late rebellion.  
Admiral Hope would remain in Jamaica, station-  
ed on a special commission of investigation.  
A riot occurred at Eves, Feb. 6th, on the  
part of some soldiers, one of whom had severely  
beaten a female on the streets and was rescued  
from custody by his companions. The soldiers  
were finally overpowered by the police and citi-  
zens and imprisoned, awaiting trial.  
Turk's Island papers of the 24th state that salt  
is in limited demand, and ultimately 82, with a  
good supply on hand.  
The steamer Tulimann, from New York, had  
arrived, today, having struck sunken shoals.  
Late Despatch papers report the arrival of the  
British North American Commissioners who  
were kindly welcomed and entertained, and left  
for Trinidad.  
The cholera was disappearing from Guada-  
loupe and had not broken out in any of the  
islands in the neighborhood.  
PHILADELPHIA, March 5.  
James Martin, formerly of the firm of Thomas  
& Martin, one of the oldest and most respected  
Philadelphia merchants, died on Saturday, aged  
78 years.  
Dr. David Jayne, well known as the proprietor  
of many large granite and marble buildings in  
this city, is lying at the point of death. He  
is suffering from pneumonia.  
New York, March 5.  
This morning a fire destroyed the spice mill of  
Packard & Jones, No. 113 Fennell st. Loss  
about \$10,000; insured \$30,000.  
A Washington special says: Another effort  
will be made in favor of the Loan bill. Mr.  
McCall's friends allege that the delay in pass-  
ing it has arrested the downward tendency in  
gold.  
Gold opened today at 129 5/8 which is a low-  
er price than has been touched since the 23d of  
May last. The fall since Thursday is attributed  
to large sales by speculative firms and to specu-  
lation rumor that the government was selling  
heavily.  
The bank statement shows a decline in depos-  
its of \$1,797,029; in loans a decrease of \$4,436,  
785; and in legal tenders a decrease of \$2,842,581.  
The specie has increased \$2,007,779, as a result of  
the government sales of gold the last two weeks.  
The banks have lost in legal tenders during the  
month of February about \$10,000,000 which have  
gone into the Sub-Treasury and represent a part  
of the amount of gold sold by the government.  
The banks are now in a strong position, as they  
hold a reserve of 95 per cent of legal tenders and  
specie against their liabilities, besides their  
large reserve in available government paper of  
short dates.  
The stock market opened dull and irregular.  
Governments steady and railroad shares firm.  
There is decidedly more activity in money.  
The demand for discounts from merchants is  
more active, owing to the growing activity of the  
spring business. The rate of call loans is gener-  
ally 7 per cent on ordinary collateral. In the  
securities market occasional loans are made at  
6 per cent. Governments opened weak in sym-  
pathy with the decline in gold, but with a subse-  
quent rise in the premium there was an im-  
provement of one-fourth per cent. in the leading  
securities.  
Foreign exchange is firmer, owing to the in-  
creasing scarcity of produce bills. The leading  
drawers quote 60 days sterling at 104 1/2. France  
are quoted at 518 1/2 for long date and 518 for  
short.  
Prices of mining stocks bid in Boston today  
Copper Falls, 28; Franklin, 38; Hancock, 13;  
Quincy, 50.  
It is reported that the New York & Erie Rail-  
road Company have recently reduced their ex-  
penses by discharging 1,500 employees along the  
line of their road, out of 15,000. Of this number  
500 are said to have been employed at the work-  
shops and depots in Jersey City. This reduc-  
tion is said to have been in consequence of a fall-  
ing off of the western bound freight one-third.  
The New Jersey Railroad and Transportation  
Company and the Jersey City Locomotive Works  
Company are said to have been reducing their  
expenses from a similar cause.  
A special Washington dispatch says: The ex-  
Confederate Gen. Joe Johnston is here to testify  
before the Committee on Reconstruction.  
The parole of Capt. Semmes has been decided  
to be valid by high legal authorities; so he will  
not probably be tried.  
Judge Daly decided today in the Court of  
Common Pleas, in the case of Geo. W. Black  
against the Sixth Avenue Railroad Co., that the  
six cent rate of fare is illegal. The ground of  
this decision was that the company having its  
charter or condition that the rate of fare shall  
not exceed five cents, cannot increase the rate  
unless authorized to do so by some paramount au-  
thority, and that the by-law of the Internal  
Revenue tax of one-eighth of one cent, which tax  
the company may add to its fare, if possible, con-  
firms no right whatever to collect the other  
seven-eighths.  
WASHINGTON, March 5.  
It is generally conceded here that the Blair  
amendment to the Constitution will be defeated  
in the Senate. A full Senate containing fifty mem-  
bers, and seven votes will be the minimum.  
The eleven Democratic Senators will not be  
questionably vote against it, as will also, it is  
alleged, the following Senators: Messrs.  
Sumner of Massachusetts, Dixon of Connecticut,  
Morgan of New York, Cowan of Pennsylvania,  
Wiley and Van Winkle of West Virginia, Hen-  
derson of Missouri, and Stewart of Nevada—  
making nineteen in all. The remaining thirty-  
one Senators, there is good reason to believe,  
will all vote for the amendment.  
NEW YORK, March 5.  
The hardware trade of the city continues brisk  
and is about the only branch of trade in which  
there is any marked activity or animation. Mer-  
chants are here from Chicago, Cincinnati, St.  
Louis, Mobile, Savannah, Charleston and New  
Orleans. The western men are only buying at a  
moderate extent, but the Southerners are buying  
freely and the bulk of the business is doing with  
the South. The agents here of the great South-  
ern houses are loaded down with orders, and  
find considerable difficulty in picking up many  
styles of goods.  
A Washington special states that the President  
will probably veto the Reconstruction bill.

**DEATH OF PROMINENT PHILADELPHIAN.**  
PHILADELPHIA, March 5.  
James Martin, formerly of the firm of Thomas  
& Martin, one of the oldest and most respected  
Philadelphia merchants, died on Saturday, aged  
78 years.

DOUBLE ACTING

**OIL PUMP.**  
This pump consists of two barrels, one within the other, and each having the separate valves and acting independently of the other. The action is:

**DOUBLE,**  
and as much will be raised at the

**DOWNWARD**  
as at the

**UPWARD STROKE.**

**THE DOUBLE SET OF VALVES**  
allows the FREE ESCAPE of air through one or the other of the barrels, without affecting the pumpage, and enables the pump to be used in almost all structures or wells where the common pump cannot be worked at.

**AN IMPROVED DESIGN**

to double the strength of the oil one has been invented which will be supplied BY THE  
and adding valve in these pumps. These pumps have  
now been used on over one hundred wells, and we give  
the following list of wells so far constructed, and a  
careful perusal of the same.

WICKITS, HART & BURROWS, Agents,  
Over Petroleum Office, Titusville, Pa.

**TESTIMONIALS:**

JOHN BARTLE, Titusville, Pa., Feb. 27, 1903.  
I am now using Carver's Double Acting Oil Pump in  
well belonging to the Pennsylvania Oil Co., and  
it is giving me the best results. It is the best  
pump, and without interruption from gas, breaks  
down, or any other cause. It is far superior to any other pump,  
and my estimate for pumping oil is less than for any  
other pump.

N. J. TOMPKINS,  
Superintendent.

ELLENVILLE WELLS, Watson Falls, Ore.

Messrs. Purtil, Hart & Co.,  
 Greck, Pa., Nov. 25, 1862.  
 I have used and been acquainted with the working  
 of your Double Acting Oil Pump in our wells and in  
 the wells during the past season, and I am satisfied  
 this pump far superior to the pumps in general use  
 in oil wells, and have no hesitation in saying that it will  
 pump more oil from a well than any other pump of  
 the same amount of steam than can be raised with a single  
 pump.  
 JOSEPH A. SCOTT,  
 Sup't. Ross Farm.  
 Office of AYERS Oil Co.,  
 Greck, Pa., Nov. 27, 1862.  
 Messrs. Purtil, Hart & Co.:  
 I have used in our wells and been acquainted with  
 the working of your Double Acting Oil Pump for  
 several months. In one of our wells it was impossible to raise  
 the common pump on account of the great pressure  
 of the oil. Your pump worked without difficulty, and  
 your Double Acting Oil Pump will pump twice as much oil as any other  
 pump with the same amount of steam.  
 UHAR LAMING, Sup't.

UNION WELL, West Hickory. {  
Mears, Bertha, Hart & Durroughs. {  
This well was pumped about six weeks with the com-  
mon 30 barrels per day. The saw in the production of  
water was to keep it up about one half the time required  
to pump the water to the surface. The water was in-  
fected with a large amount of mud and sand. The  
water was not used for anything but for the purpose  
of the well was brought up to an average of

per day, and on some days 50 barrels. This pump  
could collect any information that might be

**KROGER FARM, Petroleum Creek, Nov. 20, 1905**  
*Barth, Hart & Barrows:*

This is to certify that I commenced operating the Mc  
Coy No. 1 water pump on the first of November, and  
after testing it for three months, in which time it  
was run about 90 times—ascertained that the best in-  
crease in production was obtained by increasing the  
water day by day, being disbled by brackets of 100  
feet and machinery at least ten days each week. I  
have run it on one of these brackets for the last 10  
days, which increased the daily yield within two weeks  
from 20 to 30 barrels per day, which is the present production per  
day. It is not put in one of these brackets for 10  
days, but takes one or even the slightest breakage out, and  
at present the only thing to be done in operation and  
which will answer another

For Dr. M. C. Leggett.

Oil Creek, Nov. 29, 1905.

Wells, North End & Boring Co.  
We are now erecting a large pump in the Gasquet and  
Hills, and we propose to introduce them into all our  
fields, as we consider them to be the best pumps, most  
economical, and will improve them in all others.  
W. R. DODDWIN,  
Supt., Maple Bluffs Oil Co.
